**[00:00:21]**

hi my name is i'm working on a very great project that has call me for help am making india's full first medical chat board that have all the knowledge of information from internet that can replace a doctor of it is not primarily for replacing dr but it have so much power

**[00:00:41]**

woah that it can reduce a lot of people's work and also held a majority of ruler india to get connect with our portal and also we are offering voice to touch feature that is making things easy i'm also submitted this on various that and i'm getting funding for it and meerut

**[00:00:49]**

i think this can change our india's perspective toward it thank you for this and i will make the best bestie
